Team No. 4, Capt. Richard Reese, Winner, to Take Part in Frick Contest.

### COMPREHENSIVE COURSE ENDED

Students of Institute 'Olive Reel' Dr. McNeish Plans to Take Post-Graduate Course at Western University, Other Most Pleasant Notes.

**Special to The Courier.**  
MOUNT PLEASANT, April 25.—On December 10 the Standard First Aid team began a complete course of first aid under the direction of Dr. J. L. Burkholder, with 57 men present. Eleven meetings were held in the morning here. The course was finished with a contest Friday evening and the winning team will compete with teams from other plants of the M. C. Frick company in an elimination contest which will decide what team will represent the coke company in the next national Bureau of Mines contest. The winning team, No. 4, Richard Reese, captain, had a percentage of 97.1-6 per cent. The other members of the team are Roy Shultz, Thomas Gorton, Joseph Hostetter, Frank Viscartsky and Mifflin Shaw. In second place was No. 5, C. J. Spence, captain, with 84.2-3 per cent. Third, No. 1-A, C. Shaw, captain, 83.4-3 per cent. Fourth, No. 3, John Rodgers, 82.2-3 per cent. Fifth, No. 1, Joseph Goney, captain, 80.2-3 per cent. The judges were Dr. W. A. Marsh, Dr. J. L. Burkholder and A. O. Kuck, assistant superintendent of Southwest No. 1.

**Institute Recital.**  
The students from the Institute gave a very pleasing recital Friday evening. Those who took part in the program were Thelma Rush, Katherine Myers, Max Sterbuntel, Leola Skinkia, Myrtle Davis, Ray Gold, Janet E. Allen, Goldsmith, Sarah Horner, James Jones, Grace Miller, Lillian McIntire, Alexander Sewed and Evelyn Koonitz.

**To Take Post-Graduate Course.**  
Dr. G. T. McNeish of College avenue is making preparations to leave May 2 for Western Reserve University for a two months' post-graduate course. Dr. McNeish served overseas during the World War.

**Personal News.**

Mrs. H. W. Cover, a returned missionary from India, spoke at the Church of God last evening. A good crowd was in attendance to hear her. Mr. and Mrs. J. Porter Clark of Pittsburgh spent the week-end with Mrs. Sadie Ramsey.

## SNOKE TOO MUCH? LET NICOTOL HELP YOU QUIT

Do you smoke too much? Thousands of men do and know it. They want to smoke less or quit altogether but will not punish themselves to endure the craving that follows leaving off. Such men need Nicotol which kills the craving and makes quitting easy. The use of Nicotol or quilling altogether easy and pleasant. Nicotol cures the craving for tobacco, tones up the nerves and keeps you feeling fine and fit. Go to any drugstore for a package of Nicotol tablets and under a steel-headed guarantee of satisfaction or money refunded. Note: Ask your druggist what others say about the wonderful power of Nicotol to break the tobacco habit. He knows, and he is trusted to tell you the full truth.—Adv.

### Pittstown.

PRITTS TOWN, April 22.—Mr. and Mrs. M. J. Roiland of Connelville were here a few hours Sunday with friends.

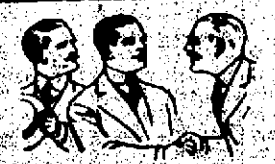

Fred Kough, son of Mr. and Mrs. Jesse Kough, is another very ill patient at his home with an attack of mumps.

Mrs. D. W. Bitner and children spent Tuesday in Mount Pleasant with the family of her cousin, Mrs. Bonnie Bungalow. The five-year-old child of Mr. and Mrs. Lewis Miller, which was struck by an automobile last Thursday evening, escaped serious injury by the car being stopped promptly. The child was bruised.

William Shields of Connelville purchased the J. L. Freed property last week and will move his family to his new home next week.

Mrs. A. C. Phillips was in Mount Pleasant Saturday visiting her brother, Frank Kough, who is a patient in the Memorial hospital, recovering from an operation on appendicitis.

Daniel W. Yates and son, Daniel, Jr., William and Philip of Latrobe.

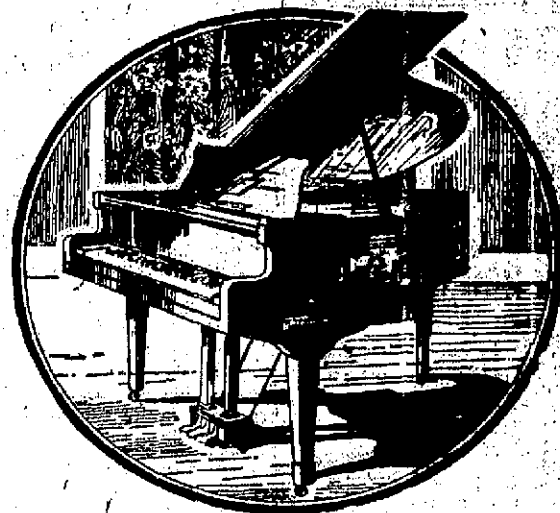

Made your face a business asset. Don't be turned down because of a poor complexion. Resinol is the only skin treatment that is guaranteed to clear away every pore, remove every blemish, and give you a healthy, glowing complexion.

Wednesday starts one of the greatest Piano Merchandising events that our community has ever seen. 400 Pianos, 400 Player-Pianos and 200 Baby Grand Pianos will be sold by all our stores at great savings in Price, and with many unusual buying advantages.

# Frederick's Thrift Club for purchasing Pianos and Player-Pianos

These are times for thrift. The Club is for thrifty people.

Music encourages thrift—music is the greatest of all elements to stimulate family morale; where there is music in the home the home-life is more attractive. There is less temptation to seek amusement elsewhere. Thrifty families have music in their homes.

This Club is made for thrifty families.

In the first place, we have cut the price on the three instruments offered to the lowest possible figure. In fact we have taken the "bull by the horns" and cut the price way below what present manufacturing cost would warrant.

## Limited to 1000 Members

Because of the low prices offered we must limit the number of instruments to be sold. We have arranged to sell 400 Upright Pianos, 400 Player-Pianos and 200 Baby Grand Pianos at these low prices. As soon as these are disposed of this Club will be closed.

The instruments offered are our famous Francis Bacon styles, which are known to two generations of buyers—every one of them a most popular model and exceedingly attractive in design and finish. No matter what your taste may be—if your home is a thrifty home you will be proud to have one of these fine instruments.

## Investigation of Best Type of House To Conserve Heat

Special to The Courier.

STATE COLLEGE, April 23.—The aid given the people of Pennsylvania through a fund of funds of quidians relating to individual engineering problems by the engineering experiment station at the Pennsylvania State college is such that it places the college in an almost indispensable light with respect to the industrial welfare of the state. The purpose of the experiment station, which has been in operation for many years, is to carry on experiments on new apparatus and to advise inventors concerning their devices.

One of the most timely projects that is now being considered by the college engineers as research work is the conservation of coal burned for heating houses and buildings. This includes the investigation of various types of building construction to find out how much heat escapes in winter through various kinds of walls. The value of air spaces as compared with solid walls has already been shown in favor of the former, through experiments in the best equipped thermal testing

## NEWSY NOTES TELL WHAT'S HAPPENING IN THE MILL TOWN

Largest District Gathering  
in History of Sunday  
Schools Held.

### DR. HEADLAND CHIEF SPEAKER

L. Lyman Leach Elected President of  
District Organization; Members of  
Legion Post Prepare for Distribu-  
tion of Poppies for Memorial Day.

Special to The Courier  
SCOTTSBURG, April 22.—The annual  
Sunday school convention of the Sev-  
enth district was held yesterday af-  
ternoon and evening in the United  
Brethren church here. The attendance  
was the largest in the history of or-  
ganized Sunday school work in Scotts-  
burg.

The afternoon session opened with  
devotions by Rev. Sease, pastor of  
Mount Nebo church. Rev. C. W. Beall  
of Tarr, a missionary and speaker of  
more than ordinary ability, made the  
principal address, "Touching and Re-  
touching of Lives." Miss Emma Leach,  
an experienced one of the children's  
division, gave an excellent talk on  
"Children's Work." Prof. Puller had  
charge of the music during the after-  
noon. The orchestra from the Pres-  
byterian church furnished music and  
J. Lowell Miles rendered several con-  
cert songs.

The election of officers for the com-  
ing year resulted as follows: Presi-  
dent, L. Lyman Leach; vice-presi-  
dent, Rev. E. H. Laubach; secretary,  
G. C. Snyder; treasurer, E. W. Wray;  
superintendent of children's division,  
Miss Blanche Loucks; superintendent  
of young people's work, Frank N.  
Stoner; superintendent of O. A. B. C.,  
J. W. Beeding; missionary superin-  
tendent, Rev. W. C. Work; superin-  
tendent of teacher training, Rev. Paul  
F. Wright; superintendent of temper-  
ance, Mrs. Lucy A. Poole; superin-  
tendent of home department, Mrs. L.  
A. Zimmerman.

Four conferences were held.  
The administrative group, for the su-  
perintendents, pastors and officers, was  
in charge of St. A. King of Mount  
Pleasant, who made an excellent ad-  
dress. At the young people's depart-  
ment, in charge of Frank N. Stoner,  
the address was made by Prof. Max-  
well of Greensburg. The children's  
division was in charge of Mrs. W. F.  
Stoner. Miss Emma Leach of Phila-  
delphia addressed the gathering. The  
O. A. B. C. conference was in charge  
of W. F. Stoner and was addressed by  
Alexander C. Ward Baker of Green-  
burg. An excellent address was also  
given by Rev. D. W. Chapman of the  
Christian church, Greensburg.

The evening session opened with  
between 700 and 800 persons in at-  
tendance. Rev. W. C. Work, pastor  
of the United Presbyterian church,  
and charge of the devotion. The  
United Brethren choir, in charge of  
Elmer Morrow, furnished the music.  
Dr. Isaac T. Headland spoke on "Some  
Bible Stories of Missionary Work."

Ladies' address to West Poppies.  
The members of Thomas A. Llewellyn  
Post, The American Legion, are mak-  
ing arrangements to have poppies  
sold to the public some time before  
Memorial Day. Each veteran will  
wear a red poppy, which has been

### Orphans Court Orders Entered By Judge Work

Judge J. C. Work of the Orphans  
court has handed opinion and orders  
for final distribution in 13 estates.

In the will of Elmita S. Luce of Jef-  
ferson township, who died March 15,  
1920, an estate valued at \$161,289.88  
was left by her husband, John R. Luce,  
a daughter, Ella Luce, and Charles E.

Phillips, executor of the estate. The  
husband died last February but his  
will has not yet been filed with the re-  
corder. It is said to amount to nearly  
\$100,000. After all debts had been paid  
the following distribution was made  
in the Elmita S. Luce will: Ella Luce,  
\$87,694.97, and Charles E. Phillips,  
\$87,694.91.

Robert J. Welch of Conneltsville  
who died April 11, 1917, left an estate  
valued at \$2,241.69. A balance of \$2,  
382.52 is divided between his widow,  
Catherine Welch, and daughter, Cath-  
erine.

An order was made directing that  
the balance of \$419.80 in the estate of  
John S. Rough of Perry township, who  
died August 24, 1918, be divided be-  
tween his widow, Gertrude Rough, and  
one child, Edith.

In the estate of Solomon Sochriest  
of Perry township, who died October  
19, 1919, the total assets amounted to  
\$2,277.97. After all debts were paid  
a balance of \$1,251.57 was ordered  
paid to the widow, Susan Sochriest,  
and three sons, John Emerson, David  
Harold and Roy.

In the estate of John S. Peters of  
Connellsville, who died March 26, 1918,  
the total assets amounted to \$778.60.  
After all debts were paid a balance of  
\$155.51 was divided between the  
widow, Frances Peters, and the fol-  
lowing children, Pearl, Ruth Orr,  
Marino, Wade, James Albert and John  
William.

A balance of \$40.39 was due the ac-  
countant in the estate of Annie Mc-  
Gill of Upper Tyrone township, who  
died February 6, 1920. The total as-  
sets amounted to \$500.

### ILLITERACY

Of Employees Increase the Accident  
Hazards in Mining.  
The director of the Bureau of Mines  
recently showed that out of a million  
men employed in the mines, 620,000  
were foreigners, and 460,000 could not  
speak English. He attributed 1,000  
deaths and 160,000 injuries in the  
mines annually to illiteracy.  
One-half of the industrial accidents  
that occur annually are attributed to  
illiteracy.

**Mrs. Clark to Meet.**  
Mrs. Clark will meet the members of the Monday Club of Scotland at her home at 100 S. 10th St. at 8 o'clock.

**Children's Party.**  
Mrs. J. M. Marlett was hostess at a children's party Saturday afternoon at her home in Orchard avenue in honor of the ninth birthday anniversary of her daughter, Elizabeth. A color scheme of pink and white with carnations decorated the room. Various games and music were the amusement followed by a children's luncheon. The table was decorated with carnations. The favors were small pink and white boxes filled with candy. Little Miss Elizabeth received a number of presents and useful gifts in remembrance of the happy occasion. Elizabeth's birthday was an out of town guest.

**Mrs. Rogers' Meeting.**  
A color scheme of pink and white was adopted at a charmingly appointed party given Saturday afternoon by Mrs. Frank Rogers at her home in the new road in honor of the ninth birthday anniversary of her daughter, Marjorie. The hours were from 2 to 5 o'clock. Twelve small friends of the young guest were present and spent a delightful afternoon at playing children's games. A peanut hunt afforded great amusement for the children. Marjorie won the head prize and Betty Mae Rogers (a baby prize). A delicious luncheon was served. In the center of the table was a large Jack-in-the-box containing pretty favors which were attached to pink ribbons, extending to the place of each guest.

**Clark-Pritchard.**  
A pretty but quiet church wedding was that of Miss Alice Clark, daughter of James Clark of Leisnering No. 1, solemnized Wednesday evening, April 20, at 7:30 o'clock in St. Vincent de Paul's Catholic church at Leisnering. Rev. Canova officiated. The bride wore a navy blue tulle suit with hat to match and a corsage of red roses. Her maid of honor, Miss Margaret Monahan, also wore a blue suit, a hat of similar design and a corsage of red roses. Best man, Mr. Pritchard, and best girl, Miss Margaret Monahan, followed the ceremony. A beautifully appointed wedding dinner was served in the Monahan home. Covers for the bridal party and immediate relatives were laid. The wedding cake was a great surprise to the many friends of the young couple. The bride was graduated from the Leisnering high school at Leisnering No. 1, member of the class of 1918 and is one of the best-known young women of that community. She is bookkeeper for the McDonald Electric company of Connellsville. The bridegroom is also a well-known and successful young man. The ceremony was performed by Rev. Canova.

**Attend Class Institution.**  
About fifty members of the Leisnering school attended the meeting at which a large number of candidates were initiated yesterday afternoon in St. John's parochial hall at Scotland. By Court Lambing of that place, Mrs. James Conway, grand regent, and Miss Lulu Owens, vice-regent of the Leisnering court, were in charge. Talks were given by Miss Maher, state regent of Kane; Mrs. Donnelly, a state officer of Leisnering; and Mrs. A. C. Hagan of Leisnering. Following the meeting a banquet was served in the hall.

**AGRICULTURE THREATENED**  
Commission to Investigate Conditions Proposed in Senate.

WASHINGTON, April 25.—Creation of a joint commission of agriculture to investigate conditions affecting the farming industry and to suggest remedial legislation is proposed in a resolution introduced today by Senator Lehigh, Republican, Wisconsin, and Representative Strong, Republican, Kansas. The measure was presented at the request of associations of farm organizations which met here last week. The resolution said that unless the condition of agriculture was remedied the United States in a few years will be forced to import much of the food necessary for its own sustenance.

It was added that producers of grain, livestock and cotton are threatened with ruin.

**Announcement.**  
Announcement was made today of the birth of a son to Mr. and Mrs. R. M. Kuro of McKeesport. The mother was formerly Miss Gertrude Schmitt.

### ATHLETIC ASSOCIATION ORGANIZED AT CAPSTAN GLASS COMPANY PLANT

Ball Team Already in Field  
Old Wilder Office Will Be  
Club House.

#### INDEPENDENTS PROGRESS

Capstan Glass is getting into action. Not only is a baseball team already in the field practicing but a real live athletic association is being organized at that plant and it may be one of the biggest things of the kind in the entire coke region. The organization took place recently, resulting in the election of A. M. Joffe as president; L. J. Moorman as vice president; J. R. Zimmer, secretary and R. M. Younklin, treasurer. The officers, together with William McManara and Robert Stevens form the board of directors.

On Saturday a membership drive opened and every eligible person will be solicited. The members of last year's baseball team are included in the charter members, who are in charge of the campaign.

The Capstan company has turned over to the athletic association the former Wilder office building for a club house. The building is of concrete-tile construction, with one large room and several small ones. It will be equipped later.

The club expects to have one of the best ball teams in the region in the field. The men were already working but no schedule has been made up yet. L. J. Moorman is captain.

The charter members of the Capstan Athletic Association are: W. L. McManara, L. J. Moorman, G. L. Burkhardt, R. J. Stephens, H. M. Taylor, E. E. Routaban, George Haddock, H. A. Adams, J. R. Zimmer, George Holden, A. M. Joffe, B. F. Younklin, C. S. Sheering, C. A. Gilpin, A. Noschase, G. F. Kleman, B. D. Brown and G. F. Stems.

Capstan Glass cut quite a figure in baseball last season. With an organized association backing the team this year it should have even greater success.

The Connellsville Independents are quietly lining up a strong outfit. Getting ready for Frank Tarr's Young Valley Independents, as it were.

#### SOME NEW FACES WILL BE ON INDEPENDENT TEAM

Some new talent may be seen in the line-up of the Connellsville Independents when the season opens here on May 21. At present the board of directors is not announcing the names of any of the players but is quietly circulating among the candidates and selecting the most promising.

Progress is being made along all lines and the management is "fishing" for a good team for the opening game. The first game will mean a lot to the Coke team this season as the date will be known as "Boosters' Day" and big returns are looked for.

It is an assured fact that the grandstand will be erected for the opener and this is expected to result in much larger attendance, especially of the women fans.

Sports here are showing much interest in the Independents. In fact, much more than was exhibited at the opening of the season last year. This fact in itself manifests a good season for a winning team.

It is whispered that an effort will be made to organize a strong independent baseball team in Uniontown. A game between the countyseaters and the Cokers would result in one of those old-time crowds that used to fill Fayette Field in the earlier days.

Although the Pirates tumbled before Cincinnati at Pittsburgh Saturday, they took a fall out of Eppie Rixey in his home town yesterday. The Bucaneros are still in second place, however, the Giants also winning.

#### MASSONTOWN AND MURDOCK'S RACE WIN ONE GAME

The Williamsburg Murdock's and Massontown broke even in a two-game series played on Saturday and Sunday. The Murdock's won the first one Saturday when the contest was called in the sixth inning with the score at 5-0. Massontown got revenge yesterday, however, getting eight hits of which six runs were scored. The visitors got three tallies.

Each team scored two in the opening frame and for five more innings it was a real battle. Then Massontown slipped one more over in the seventh and annexed a trio in the eighth. The Murdock's scored one in a ninth inning rally.

The score:

### OLD-TIME STARS IN CAPITALISTIC CLASS

Many Players Can Count Their Wealth in Six Figures.

Some Examples Cited of What Several of Better-Known Ball Players Have Piled Up for Their Com. Fort in Old Age.

High salaries and long seasons have placed ball players in the capitalistic class. They are some ball players. There are many more on the diamond today who can count their wealth in six figures, the result of careful attention to their work and to their investments. Here are just a few examples of what some of the better-known ball players have piled up for themselves by their ability to play ball and to amuse the public.

Ned Hanlon, former manager of the Brooklyn, can count his wealth up to six figures. He has real estate in Baltimore, Pittsburgh and Greater New York.

Willie Keeler had a big salary for a decade and saved his money. His net worth over in Brooklyn now keeps him from want.

Jack Chabers owns farms, dairies, houses, bennies and game preserves up and around North Adams, Mass.

Clark Griffith, the Washington manager, is a well-to-do ranch owner, with Montana land enough, if it was in New York city, to outstrip the Astor estate.

Jim McGuire owns pretty much of Alton, Mich., and is one of its leading citizens. Jim has played ball for 25 years, and since he got into the big leagues has saved his money.

Danville Richardson is one of Elmer's most successful business men, he and his brother, who is mayor of the city, owning the biggest dry goods store in the southern tier.

Joe McGinnity is interested in an iron foundry at South McAlester, Okla., and is well fixed.

Samuel Morris has real estate in San Francisco and other property in California.

John J. McGraw, the New York manager, should be able to draw a check in the five-figure class. McGraw is of a speculative turn of mind and has been very successful in picking winners.

Dan Brouthers is now one of Washington's leading citizens and one of its wealthiest. Dan played a couple of years ago with the Poughkeepsie club and led the Hudson River league batting.

Roger Connor owns enough real estate in Waterbury, Conn., to insure him a big income as long as he lives.

Something for ballplayers to worry about: What'll they do for "home" when there are no more heroes?

## At the Theatres

### THE BOISSON.

"CURTAIN"—A delightfully refreshing picture of stage life from the celebrated Saturday Evening Post story of Rita Wieman, with Katherine MacDonald, known as the American beauty of the screen, is the feature attraction today and will also be shown tomorrow. It is a First National picture and there has never been a photoplay made that discloses such intimate knowledge of the stage, for it is technically correct in every detail.

Nancy Bradshaw was reared in the environment of the stage. Her cradle was the tray of a theatre trunk. Jerry Coghlan, who has known Nancy since her birth, and who has become a prominent Broadway manager, gives her an opportunity to star in a new play by a young author who is her silent admirer. She makes good. Nancy made a millionaire pursuer of women of the stage and after a whirlwind courtship, marries him. He forces her to forsake the stage, stating that his love will fill the void. Later a wonderful son is born to Nancy and he helps her to overcome her longing for the glamour of the footlights. Coghlan and the young author are constant visitors at Nancy's Long Island home, seeking her advice and help on their new production. Nancy will not listen to their attempts to lure her back to the stage. She later discovers her husband's infidelity and returns to her profession. How she works out her problem and eventually finds happiness, furnishes one of the most delightful stories the screen has produced in a long time. In this photoplay Miss MacDonald is at her best.

### THE PARAMOUNT.

"KISMET"—In which Otis Skinner, the celebrated romantic actor of the American stage, makes his screen debut, is being shown today and will also be the feature attraction tomorrow. In the first place, the combina-

OTIS SKINNER in KISMET

tion of Otis Skinner and "Kismet" assures the movie fan of something worth while. Here is a real story, written by an American dramatist, in which the greatest of American character actors appears. Mr. Skinner knows his "Kismet" as few actors know their plays. Those who have seen the picture were privileged to see Mr. Skinner in his first venture on the screen. An article of the semi-old school, Mr. Skinner literally had to be dragged into the realm of the film. His appearance on the silver sheet should be heralded with great joy by the lovers of moving pictures and it is to be hoped that he has overcome his antipathy to camera acting and will again be seen on the screen in some of his best portrayals.

For three consecutive seasons, Mr. Skinner played the part of Hal, on the legitimate stage. With him during this time was Hamilton Revelle, who, in the picture, plays his old role, that of the Mansur. Rosemary Theby as Kut-al-Kub and Elinor Fair as Marjannah, gave excellent performances. It should be noted that while Mr. Skinner occupies the center of the screen, his clever acting does not subordinate the other members of a perfect cast.

### THE ORPHEUM.

"HUMORESQUE"—A Paramount-Artcraft picture, and said to be Fannie Hurst's best story, opened today for a three-day attraction at this theatre. There are only a few really great photoplays each season, pictures that grip you and make a lasting impression. "Humoresque" belongs among these select few. It has qualities which raise it way above the average. Alma Rubens is featured in the story. It is a tale of youthful genius and mother-love, with the scene laid chiefly in New York's Ghetto and Fifth Avenue. Miss Hurst, as is well known, is right at home in portraying with a realistic touch the characters of New York's humbler inhabitants, and "Humoresque" is said to contain intense heart-appeal. The scene is New York's famous East Side and the central character a youngster with a soul for music. Receiving his first violin from his mother on his seventh birthday, the boy later develops into a world-known genius. Then the war comes, and he returns from overseas with a wounded shoulder that is thought will prevent him from ever playing a violin again. But in the great crisis of his life the injured shoulder is restored to strength and his happiness returns.

CHARLEY RIGLER ALL RIGHT AS AN UMPIRE

Umpire Charley Rigler likes his joke. One night after Umpire Billy Evans had gone to bed, his telephone bell rang. Evans answered. Over the wire he was told that a fan was speaking and wished a decision on a play to settle an argument. It was an involved question and Evans answered it at length and with much patience.

Then the voice asked: "What kind of an umpire is Rigler?" Evans began to get impatient. "A very good one, as good as there is," he answered shortly.

"Thanks," came back over the phone. "This is Rigler speaking. Now you can go back to bed, Billy."

opponent's face; even when with a sudden gasp of agony the man dropped his knife from fingers which, of a sudden, had become numb, the steady, merciless glare still bored into his brain.

"You're not very clever at it, are you?" said Hugh softly. "It would be so easy to kill you now, and except for the inconvenience I should undoubtedly suffer, it might be a bad idea. But they know me downstairs, and it would make it so awkward when I would like to dine here again. So, taking everything into account, I think—"

There was a sudden lightning movement; a hand and a quick jerk. The commander of Potts was dimly conscious of flying through the air, and of hitting the floor some yards from the door. He made a frantic effort to rise, but the pain was too great, and he rolled over cursing, while the soldier, his hand on the door-knob, laughed gently.

"I'll keep the toothpick," he remarked, "as a memento."

The next moment he was striding along the corridor toward the elevator. As a fight it had been a poor one, but his brain was busy with the information he had heard. True, it had been scrappy in the extreme, and, in part, had only confirmed what he had suspected all along. The wretched stranger had been foolishly done to death, for no other reason than that he was too inefficient a secretary. Hugh's face lightened; it revolted his sense of duty. It wasn't as if the poor blighter had done anything; merely because he existed and might ask inconvenient questions he had been removed. And as the elevator shot downwards, and the remembrance of the grim struggle he had had in the darkness of the Ems the night before came back to his mind, he wondered once again, if he had done wisely in not breaking Peterson's neck while he had the chance.

He was still debating the question in his mind as he crossed the tea-lounge.

"Why, Captain Drummond, you look terrible." A well-known voice from a table at his side made him look down. He bowed a little grimly. Dr. Peterson was regarding him with a mocking smile.

He glanced at her companion, a young man whose face seemed vaguely familiar to him, and then his eyes rested once more on the girl. Even his masculine intelligence could appreciate the perfection—in a slightly foreign style—of her clothes; and, as to her beauty, he had never been under any delusion.

"The Carlton seems rather a favorite resort of yours," she continued, watching him through half-closed eyes. "I think you're very wise to make the most of it while you can."

"While I can?" said Hugh. "That sounds rather depressing."

"I've done my best," continued the girl, "but matters have passed out of my hands, I'm afraid."

Again Hugh glanced at her companion.

### CHAPTER SIX.

In Which a Very Old Game Takes Place on the Hog's Back.

#### ONE.

A thick grey mist lay over the Thames. It covered the water and the low fields to the west like a thick white carpet; it drifted sluggishly under the old bridge which spanned the river between Goring and Stratford. It was the hour before dawn, and sleepy passengers, rubbing the windows of their carriages as the Plymouth boat express rushed on toward London, shivered and drew their rugs closer around them. It looked cold and dead.

Slowly, almost imperceptibly, the vapor rose, and spread outwardly up the wooded hills by Baddinton. It drifted through the shrubs and rose- bushes of a little garden, which stretched from a bungalow down to the water's edge, until at length wisps of it brushed gently round the bungalow itself. Suddenly the window of one of the downstairs rooms was flung open, and a man with a white long- guard face leaped out drawing great gulps of fresh air into his lungs. Three other men lay sprawling un- consciously in chairs, and two dogs lay motionless on the hearthrug.

After a moment or two the man withdrew, only to appear again with one of the others in his arms. And then, having dropped his burden through the window on to the lawn outside, he repeated his performance with the remaining two. Finally he pitched the two dogs after them, and then, with his hand to his forehead, he staggered down to the water's edge.

"Holy smoke!" he muttered to him- self, as he plunged his head into the cold water, "talk about the morning after!"

After a while, with the water still dripping down his face, he returned to the bungalow and found the other three in various stages of partial in- sensibility.

"Wake up, my heroes," he remarked, "and go and put your great fat heads in the river. We were all of us drunk or dozed somehow, and now," he added bitterly, "we're all got heads, and we have not got Potts."

"I don't remember anything," said Toby Sinclair, "except falling asleep. Have they taken him?"

"Of course they have," said Hugh. "Just before I went off I saw 'em all in the garden, and that evening Lakington was with them. However, while you go and put your nuts in the river, I'll go up and make certain."

With a grim smile he watched the three men lurch down to the water; then he turned and went upstairs to the room which had been occupied by the American millionaire. It was empty, as he had known it would be, and with a smothered curse he made his way downstairs again.

## INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin under- neath the toe nail, that it can not pen- etrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. How- ever, anyone can buy from the drug store a tiny bottle containing direc- tions.—Adv.

## HOW A CLEVER SPY SECURED "SPURLOS VERSENKT" SECRET

Continued from Page One.

His job in the hospital Argentine would prove a pleasant and profitable one.

Dr. Brecht was firmly established in the confidence of his German "superiors."

**Take Confidential Message.**

When he set out for the mountainous region of the Argentine to make inquiry into the value of oil lands, he took with him official messages to the branches of the German bank.

The doctor, naturally, had many a confidential talk with the leading Germans in Argentine circles.

He was able to give them a good deal of information which they thought was of great value, and, in return, he gained from them a pretty clear idea of what was going on in South America, and what they hoped would result from the plans and plots which were being made.

They all deplored the fact that by some extraordinary mischance the message of Zimmerman, German foreign minister, to the German minister in Mexico, had been intercepted and published. It was most unfortunate that the United States had discovered German intentions to promote a Mexican-Japanese alliance in war against the United States.

The "reconquest of New Mexico, Arizona and Texas" would now have to be postponed.

Dr. Brecht agreed it was lamentable that plans of such importance should fall into the hands of the enemy, but he congratulated the Germans of the Argentine upon having so wise and discreet a leader as Count von Luxburg, who, no doubt, had been able to negotiate many a vital bit of business for the fatherland without discovery. It was to be regretted all were not so clever as he.

**Brecht Leaves For Berlin.**

On the other hand, even though it was true that the enemy had obtained some rather valuable information from them, was it not true a thousand times over that the marvelous secret service of Germany had kept the perils of the Argentine from the enemy's knowledge and move the enemy's secret agents were everywhere.

Beyond all question Dr. Brecht was a brilliant and charming man. Hence there was general regret when he announced that he must soon leave for Europe. They all expressed grief at the thought of his departure.

However, if it must be, then to make the best of it. Perhaps the suggestion came from him, or it may have originated with them, in either case the fact remains that it was proposed that Dr. Brecht should be bearer of certain important dispatches destined for Berlin.

**"Spurlos Versenkt" Message.**

Then came a bolt from the blue. The famous "spurlos versenkt" message of the clever and gracious and devoted Count von Luxburg was given to the world.

Of course, it was never intended that the world should get that message, and least of all that it should be printed with big headlines and in black-face type in the newspapers of Buenos Aires.

If you are the guest of a government and you should read word to your own government suggesting that should it have occasion to destroy any of the shipping belonging to your host it should leaving any trace of the government of which you are a guest is likely to feel as if its hospitality were not wisely bestowed. And that is precisely what happened in Count von Luxburg's case. The government of the Argentine gave him his passport.

So, since the count had to leave even sooner than Dr. Brecht he said he would take the important dispatches to Berlin himself.

The regret of Dr. Brecht that he might not do this service for the fatherland was even deeper than his regret that he was leaving. He knew that the count must leave under such circumstances, possibly overshadowed by the disappointment he felt at being denied the privilege of carrying messages to the imperial government.

**Burn German Club.**

The night of the day upon which Count von Luxburg was given his passport Dr. Brecht dined at the Bismarck restaurant with some of his German friends. He left for his home in the company of one of them. They had not gone far before their attention was attracted by a glare on the night sky which plainly indicated that a big fire was raging not far away. Inquiry disclosed the fact that it was the German club and that a crowd of pro-ally students and others had mobbed this "Tauton strong hold and put the torch to it.

The doctor and his friend hastened back to the Bismarck to acquaint their companions with this alarming development in a serious situation. To the dismay and terror of the friend, at least, they found the restaurant had been added by the mob and completely gutted. Tables were overturned and dishes were smashed. The patrons had fled to seek refuge in their homes.

Dr. Brecht and his friend did likewise.

Then Dr. Brecht chuckled.

When the doctor was at last alone in his room with the door securely closed and no fear of any listening ear at the keyhole there is good reason to suspect he chuckled audibly.

He had had no share in the night's rioting, of course, but the turn events had taken plainly indicated that the menace of German conspiracy in the Argentine as in Brazil, was now practically at an end.

The exposure of the charming and clever Count von Luxburg had accomplished its purpose. He, as the arch-conspirator, was leaving the country, and the fellow-plotters would be compelled

## IN THE SPRING YOUR BLOOD NEEDS A TONIC

Winter Weakens Blood, Makes Face Pale. Take Gude's Pepto-Mangan.

**THE BEST KNOWN BLOOD TONIC**

Drowsy Spring-fever Feeling That Comes from Sluggish Blood Will Soon Leave You.

As all growing things on earth shoot into new life in Springtime, so do the billions of cells that make up each part of the body renew their vigor.

As you open the windows, breathe the spring air, and let in the sunshine, the red corpuscles in your blood should carry more oxygen to the tiny cells.

The red corpuscles are tiny disc-shaped particles, swimming in enormous numbers in the blood. They carry oxygen to cells in all parts of the body and they carry away worn-out waste matter. Sometimes, especially in the spring, after the winter indoors and more or less sickness, the red corpuscles themselves need rebuilding.

Gude's Pepto-Mangan contains just the ingredients to give them greater power to absorb oxygen and to distribute it throughout the body.

That is why it is such a good spring tonic. It helps so much to bring back color to cheeks made pale and wan by the necessary indoor winter life. It adds to the number of red corpuscles. With fine spring days and Gude's Pepto-Mangan you gain in vigor and attain good health.

Don't go around drowsy this spring. Take that good tonic Gude's Pepto-Mangan. You can get it in tablet form or in liquid form at your druggist's.

Both forms have the same medicinal value. Insist upon genuine Gude's Pepto-Mangan—Advt.

to scatter or the low.

All of which, as the reader may have guessed, was very much to the liking of the eloquent Dr. Brecht. He had only one real regret—to wit, that the count had been exposed too soon to permit him carrying out his plan of becoming the trusted courier of important secret dispatches for Berlin.

If those dispatches had been given to the doctor, I have every reason to believe he in Washington might have learned some interesting things about enemy plans.

**Not the Only Secret Service.**

I have told this story—one of not a few that might be told about naval intelligence—in order that my readers may realize Germany's loudly advertised secret service was not the only service of its kind which operated effectively during the war.

Plot after plot was circumvented by American agents. Captain Franz Pappe wrote of us as "those idiotic Yankees." Little thinking that we should give his opinion of us to the world and turn the laugh on him and his government.

The Zimmerman note to the German ambassador in Mexico was another case of catching the plotters in their own trap. Undoubtedly Bernstein knew about it before it was transmitted. Indeed he has his admission of knowledge. He understood its tremendous importance, but with all the money and all the facilities of his far-reaching service of intrigue, he was unable to prevent its disclosure.

Dr. Brecht, who did such useful work for us in Brazil, in the Argentine, in an American of varied accomplishments. He speaks Portuguese, Spanish and German with equal ease. Although of an American colonial family he had spent many years in Germany, was a doctor of philosophy of Leipzig university and knew

the German character and habit of thought thoroughly.

Hence our German Plot.

When in February of 1917 was launched as a practical certainty he was enrolled, at his own request, in naval intelligence, and on March 3 more than a month before we entered the struggle, he sailed for Brazil, from which country there had come rumors and reports of German skeleton regiments of German veterans stories of ammunition, and even submarine plots ready for assembling when the hour for the arrival of secret naval bases and wireless stations was also said to be part of Germany's preparation for a possible attack upon the United States.

Dr. Brecht—whose real name was something quite different—was one of the men who in our secret service contributed greatly to America.

(The next article telling how secrets of war were discovered will be published in The Courier tomorrow.)

## Comet Expected To Give Earth Meteoric Shower

WASHINGTON, April 25.—Pons Winnecke, a comet that will probably give the earth a shower of meteors on June 26 when its path will come very near that of the earth, has been located on photographic plates exposed through large telescopes at the Yerkes Observatory at Williams Bay Wis. according to information received at the Naval Observatory here.

The comet has been "captured" by the most massive planet Jupiter and is one of its family of 19 periodic comets. Every 58 years Pons Winnecke has been coming near the earth, but the approach that it is just beginning is one of the closest yet.

This comet is named after its two discoverers, Pons and Winnecke. On January 2, 1819, Pons located it and assigned it a short period, but during the next six returns it was not located.

Winnecke then re-discovered it in 1858 on March 8. Three of its ten returns since then have been missed.

Astronomers have not yet been able to tell whether or not the comet will be visible to the naked eye during this return.

**A CLEAR COMPLEXION**

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 15 years treated scores of women for liver and bowel ailments. During those years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a comical action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a bitter, no-good feeling all out of sorts, inactive bowels you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—successful substitute for calomel—now and then just to keep them fit, 15c and 30c.

## Spring Suggestions in Dry Goods

### The Stocking Question

—always resolves itself into three things—fit, comfort and wear. When fit is correct, style is assured and comfort, naturally follows. As for wear when long staple yarns of selected fibers are used, fine texture is always supplemented by satisfactory wearing qualities. When, to these three good, moderate price is added as at Wright-Metzler company our patrons always know any of their stocking questions find the correct answer here.
